Profile Summary

IIT Roorkee graduate (BS–MS, Mathematics and Computing, Class of 2026) seeking Full-Stack Software Development Engineer (SDE) roles, with hands-on Frontend and Backend development experience through one industry internship and four end-to-end academic projects built with React.js, Node.js, and Express.js. Skilled in building REST APIs, responsive UIs, and database-backed applications, with additional experience integrating AI/LLM models into full-stack systems.

Education

Indian Institute of Technology Roorkee	2021–2026
BS–MS, Mathematics and Computing	CGPA: 7.4/10
Jawahar Navodaya Vidyalaya, Nizamsagar	2020
Intermediate (Class XII)	90.8 %
Jawahar Navodaya Vidyalaya, Nizamsagar	2018
Matriculate (Class X)	85.6 %

Experience

Frontend Developer Intern UPNYX	May 2025 – Jul 2025
- Developed the user interface for a marketing automation platform using React.js and Redux Toolkit (RTK). - Integrated API endpoints to enable reliable bi-directional data synchronization across 3 internal systems.	

University Projects

Healthcare Chatbot Self Project	Jan 2026 – Feb 2026
- Architected a full-stack AI chatbot with React (Vite) and Node.js/Express for symptom analysis and recommendations, integrating a RoBERTa-based model with a rule-based fallback to respond when model confidence is low - Optimized UX and deployment with typing effects, avatar chat, auto-scroll, and secure API token handling	
Smart Asset Management And Resource Allocation Platform IIT ROORKEE	Apr 2026
- Engineered full-stack booking platform (React, Node.js, Express, PostgreSQL, Prisma) with RBAC - Developed 13 REST API endpoints with JWT/bcrypt auth and date-overlap conflict prevention - Built an analytics dashboard (Recharts) tracking bookings across 7 categories; containerized the app with Docker for consistent local and deployment environments	
WatchListAI – Smart Reading & Watch Tracker GDSC	Nov 2025 – Dec 2025
- Built a React/Tailwind dashboard and Chrome extension for one-click content capture and tracking - Integrated Google's Gemma 2B IT (2-billion-parameter) model via WebLLM/WebGPU for local summarization (~1.5GB model, CPU fallback), with Firebase for auth and storage	
BookStoreApp MDG	Apr 2025
- Built RESTful APIs using Node.js and Express.js for book and user management. - Implemented authentication, role-based access control, and CRUD operations for books and users. - Modeled and queried data with MongoDB and Mongoose, including schema validation.	

Achievements

- Secured **AIR 7591 in JEE Advanced** out of 2.5 Lakh Candidates
- Secured **AIR 10821 in JEE Mains** out of 10+ Lakh Candidates
- Received **HOD's Letter of Appreciation** for academic excellence in Spring 2025–26

Technical Skills

Languages: Python, C++, JavaScript, TypeScript, SQL, HTML, CSS
Frontend: ReactJS, Tailwind, Responsive UI, Hooks, Component Design, Redux Toolkit (RTK)
Backend: Node.js, Express.js, REST APIs, Middleware, Authentication, JWT, Prisma
Databases: MySQL, MongoDB, PostgreSQL
AI/ML: Applied NLP Model Integration (RoBERTa), On-Device LLM Deployment (Gemma 2B, WebLLM/WebGPU)
Tools/Platforms: Git, GitHub, Linux, VS Code, Firebase, Google Colab

Relevant Coursework

IIT Roorkee: Data Structures and Algorithms, DBMS, Financial Risk Management, Statistical Machine Learning, Linear Algebra, Probability and Statistics, Graph Theory, Multivariate Techniques, Statistical Inference

Positions of Responsibility

Member NSS, IIT Roorkee	Jan 2022 – Mar 2022
- Promoted the National Social Summit 2022 through coordinated outreach and event publicity efforts. - Assisted in audience engagement and awareness campaigns focused on socio-economic issues. - Collaborated with team members to drive participation and ensure smooth execution of activities.
